All Mobile Insurance.

Damage/destruction.

Phone screens break, notebooks are damaged and water damage destroys tablets much more often than we would like. But that's no reason to worry. We will refund the costs of repairs or pay for a new device. Cover is valid for two years from the date of purchase.

Theft.

Take your eyes off your mobile phone or notebook for a moment, and it's gone. A situation that is even worse when you're traveling. Fortunately, we make sure that you soon have a new device and are connected again. This cover is valid for five years from the date of purchase.

Unauthorized call cover in the event of theft.

It's bad enough to have your mobile device stolen. If the thief then puts it to industrious use, the costs can rapidly snowball. But don't worry: If your mobile device is used for unauthorized calls, SMS or MMS, data transfer or data upload or download, we will pay the charges incurred.

Extended guarantee.

Additional benefit: You receive a one-year guarantee extension upon expiry of the manufacturer guarantee for all your mobile devices. This means we cover the costs of repair or of a new device in the event of damages caused by material flaws or production faults.

Security point by point. Around the world. And at home.

Insure them now. All devices in the same household.
